The Grantee further accepts that such investigations may reveal the need for a high level of involvement of an experienced geotechnical engineer both in the design and in the supervision of geotechnical aspects of the works required to be carried out on the Lot. The Grantee acknowledges and agrees that all costs, charges, fees or other expenses whatsoever arising out of any geotechnical investigations, design works, construction, supervision or any other matters whatsoever will be entirely his own responsibility and the Grantee further acknowledges and agrees that the Government shall be under no liability whatsoever in respect of any such costs, charges, fees or other expenses.

- (iii) The Grantee acknowledges and accepts that all additional costs, charges, fees and expenses whatsoever, whether in respect of geotechnical studies or works to protect against or remedy future changes to the levels of the Lot will be his sole responsibility and that the Government shall be under no liability to the Grantee, his successors or assigns in respect of such costs, fees, charges and expenses.

The Grantee shall comply with and at his own expense meet any requirements which may be imposed by the Director in respect of the Services in granting the aforesaid approval, including the cost of any necessary diversion, relaying or reinstatement. The Grantee shall at his own expense in all respects repair, make good and reinstate to the satisfaction of the Director any damage, disturbance or obstruction caused to the Lot or the Brown Area or both the Lot or any part thereof and the Brown Area or any of the Services in any manner arising out of the Works (except for nullah, sewer, storm-water drain or water main, the making good of which shall be carried out by the Director, unless the Director elects otherwise, and the Grantee shall pay to the Government on demand the cost of such works).
